

BEAM CLAMP HANGER RBH

Rigid beam clamp for high-load connections

RBH beam clamp provides direct steel-to-steel connection without drilling or welding. Ideal for suspending threaded rods and modular frames securely from structural beams.

Material

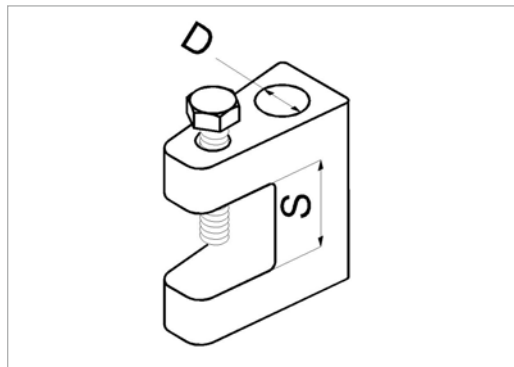

- Ductile cast iron with Bolt 8.8 grade

Key Features & Benefits

- Engineered for reliable performance under heavy tension and shear loads.
- Designed to hold threaded rods, hangers, and support brackets firmly in place.
- Strong cast iron body ensures rigidity in the fixing.

Application

- Designed for suspending services directly from structural steel beams.
- Provides secure connection point for threaded rods without welding or drilling.

D	Thread diameter
S	Clamping span

Product Variants

Item No.	Description	Range S (mm)	Thread Size D (mm)	Torque (Nm)	Load (kN)	Sales Unit (Pcs)
401701	CLAMP HANGER RBC M 8	0-21	M8	20	3.5	50
401702	CLAMP HANGER RBC M 10	0-21	M10	30	4.0	50
401703	CLAMP HANGER RBC M 12	0-25	M12	30	5.0	50
401704	CLAMP HANGER RBC M 16	0-25	M16	40	7.0	25
