

# CHANNEL CONNECTOR RCC

## Rigid connector for straight channel extension

RCC channel connector joins two channel segments with precision and strength. Ideal for extending lengths without compromising alignment.

## Application

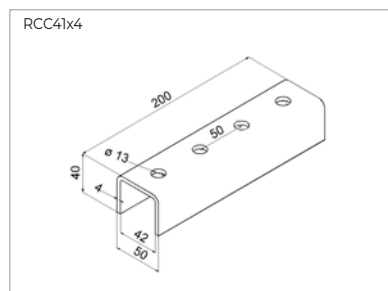

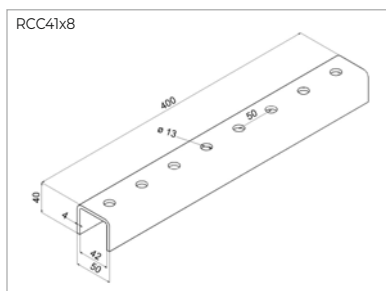

- Designed for connecting two channel sections together in a straight section.
- Ideal for reinforcing structural support frameworks in installation systems.

## Material

- Steel Grade-E250
- Coating- Electrogalvanized, Hot Dip Galvanized

## Key Features & Benefits

- The design allows for an easy and efficient connection of channel sections without the need for welding, saving time and labour.
- Provides a strong and stable joint, which is essential for maintaining the integrity and load-bearing capacity of the support framework.

Product Variants

Item No.	Description	Thickness (mm)	Hole Size (mm)	Length (mm)	Sales Unit (Pcs)
403401	Channel connector RCC 41X4 GI	2	13	200	10
403403	Channel connector RCC 41X8 GI	2	13	400	10
403402	Channel connector RCC 41X4- HDG	2	13	200	10
403404	Channel connector RCC 41X8- HDG	2	13	400	10
