

BASEPLATE RBP

Rigid base anchoring plate for secure mounts

RBP baseplate provides stable anchoring for channels and supports. It ensures strong foundation without compromising alignment.

Material

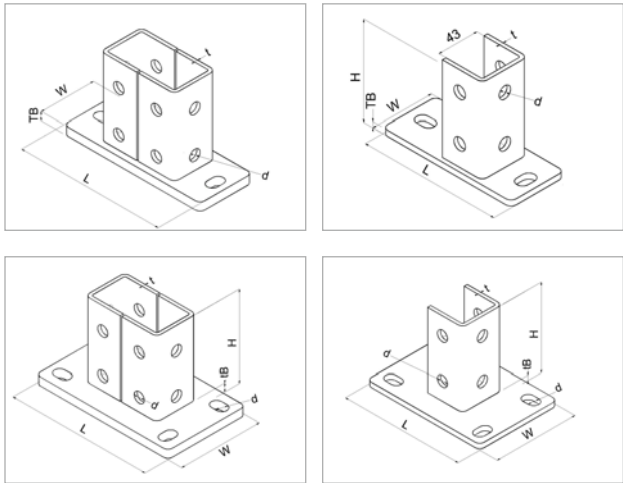

- Steel Grade-E250
- Coating - Electrogalvanized, Hot Dip Galvanized

Key Features & Benefits

- Precision-fit saddle design ensures quick insertion and secure fixing of channel profiles.
- Robust steel construction with anti-corrosion coating delivers long service life.
- Stable design guarantees reliable load transfer into the base structure.
- Easy installation reduces labour time and ensures consistent alignment.
- Compatible with multiple channel sizes, offering flexibility across different projects.

Application

- Base plate for creating solid connections between channels and building structures.
