

# ANGLE FITTING RAF

## Precision corner bracket for rigid mounting.

RAF angle fitting offers tight, dependable corner joints. Useful in creating strong right-angle intersections in channel frameworks.

### Application

- Used for connecting channel sections on custom angles in support framing systems. Provides strong and stable joints in various assemblies.

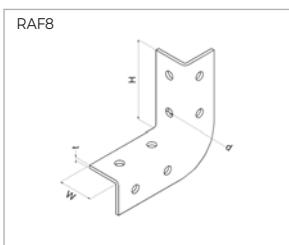

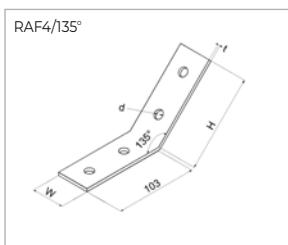

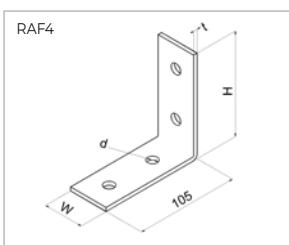

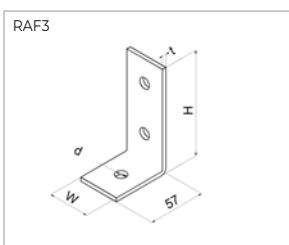

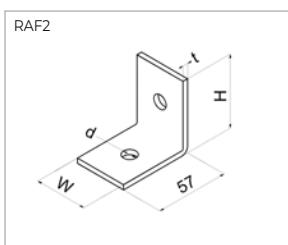

### Material

- Steel Grade-E250
- Coating- Electrogalvanized, Hot Dip Galvanized

### Key Features & Benefits

- Ensures accurate alignment and stable connections between channels.
- pre-punched holes allow quick fixing with bolts/ nuts without on-site drilling.
- compatible with multiple channel profiles and support systems.
- available in Electrogalvanized, Hot Dip Galvanized finishes for long service life.
