

# HEAVY DUTY CANTILEVER ARM RHXCA

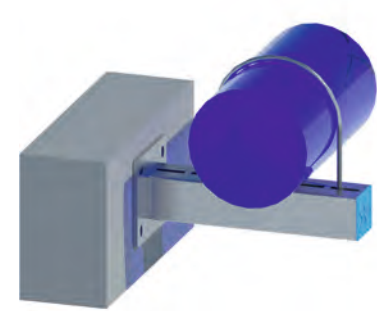

## Support arm for heavy loads

RHXCA cantilever arm extends the structure while carrying substantial weight. Built in multiple lengths to adapt to varied layouts.

## Application

- Wall-mounted or ceiling-mounted supports for MEP services.

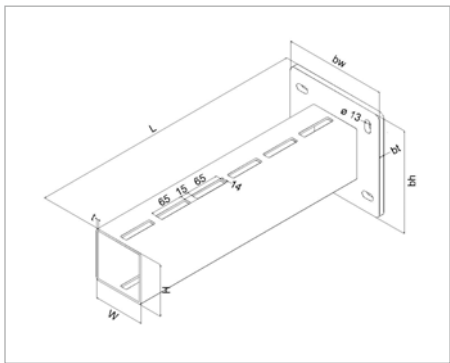

## Material

- Steel Grade-E310
- Coating – Hot Dip Galvanized

## Key Features & Benefits

- High-strength profile manufactured for superior load performance.
- Heavy-duty box profile – ensures robust structural stability.
- Corrosion resistant – hot-dip galvanized (HDG) finish provides long-term protection in harsh environments.
- Precision-engineered slot size dimensions ensure compatibility with fittings.  
Designed for seamless connection with clamps, brackets, and channel accessories.
