

LINED CLEVIS HANGER RCHL

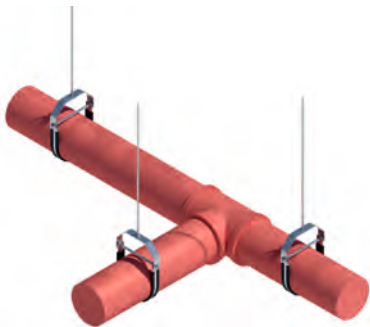

Adjustable hanger for suspended piping with lining

RCH clevis hanger provides a sturdy, vibration free adjustable suspension for horizontal piping. Perfect for HVAC, Fire Fighting and industrial applications.

Application

- Designed for horizontal suspension of pipes from ceilings in firefighting and HVAC installations.

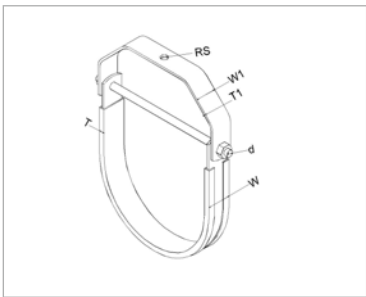

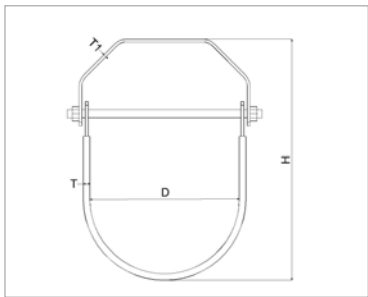

Material

- Steel Grade-E250
- Coating – Electrogalvanized, Hot Dip Galvanized

Key Features & Benefits

- Durable Construction – Made from high-strength steel for long service life.
- Corrosion Resistance – Electrogalvanized, Hot Dip Galvanized finish for protection in humid or wet environments.
- Adjustable Fit – Accommodates a range of pipe diameters for flexible installation.
- Easy Installation – Pre-drilled holes or threaded connections for quick mounting.
- Compliance Ready – Meets fire safety and mechanical support standards.
- Vibration resistance – Reduces the transmission of vibrations from one surface to another.
